
Assignment

Name: Manuel Hufnagel

ID: yqb19201

App Description

All points from 9/20 to 20/20 are implemented.

Due to the requirement of only using whole numbers, the decimal places are cut off.

The maximum in and output digits are 6. So the max resulting numbers are 999999. If the calculated output is higher than 999999, the number 999999 will be displayed.

Apart from that, there are no known limitations.
